**Subject:** FYI: NEJAC Advice Letter: Request for DHS Listening Session on Chemical Facility Safety and Security for Charleston, WV

Hello-

I am sending this to you as the EJ Coordinators for the program offices who will receive a copy of the attached NEJAC advice letter in which it requests that EPA, in its role as co-lead of the interagency Chemical Facility Safety and Security Working Group, convene a listening session on chemical facility safety and security for Charleston, West Virginia. As you may recall, the nine-county area around Charleston experienced a chemical spill that impacted drinking water for nearly 300,000 residents.

I've also attached a copy of the review plan which outlines a proposed process (Review Plan) by which the Administrator's Office will forward the report to relevant program office(s) for consideration of the report's recommendations. The Review Plan includes a proposed timeframe for response to the Administrator's Office regarding how EPA will respond to the recommendation(s) in the report. Please note that the Review Plan is not for distribution but rather for your information.

Friday, the letter will be submitted to the Administrator, with cc's to your AAs via CMS.

**Let me know if you have any questions.**
